

The History of the Variations: of the Protestant Churches Volume I (Illustrated)

Volume I of Jacques-Benigne Bossuets two volume tome, translated from the French. As the title indicates, this is a history; but the story line follows the myriad of doctrinal changes within the reform movement from the outset, rather than simply a chronology of historical events. Volume one begins with Luthers original disputes and moves through to somewhere around the death of Mary Tudor. Aside from a few colloquialisms, the writing is direct and straightforward. The pages fly by quickly and the writers insights are marvelous. Jacques-Benigne Bossuet (1627 1704) was a French bishop and theologian, renowned for his sermons and other addresses. He has been considered by many to be one of the most brilliant orators of all time and a masterly French stylist. The Catholic Encyclopedia (1913) calls Bossuet the greatest pulpit orator of all time, ranking him even ahead of Augustine and Chrysostom. 100% faithful to the 1836 Dublin edition, this book has been meticulously formatted for Kindle with all original footnotes. If you have any interest in the Reformation, this is one book you have to have. This book is out of print, and this Kindle book is the only e-book of its kind. (actually theres one other, but low quality) Take a Look Inside.
