

DEALING WITH ADDICTION: WHY THE 20TH CENTURY WAS WRONG

Dr. Peter Ferentzy, an addiction expert who has lived the life of a crack addict, reveals the ugly truth: the dominant approach to drug and alcohol addictions has hurt-and even killed-more people than it has helped. Hitting bottom, abstinence, and other buzzwords are often code for approaches that promote degradation, rape, and death-and on a scale that really amounts to genocide.
